

Student Wellbeing Projects

Ph: 47 331 499 for info

NCNS's Student Wellbeing program is the non-religious version of the School Chaplaincy program. NCNS staff provide one-to-one pastoral care and group activities for student well-being at Cranebrook High, Penrith Adolescent Centre & Mulgoa Public.

Experienced youth and family workers are a great asset to the school, bringing expertise and referral pathways for students with a range of needs. Activities vary from resilience group-work, recreational activities in the playground, one-to-one goal setting, life skill development particularly assisting with home and school relationships, bullying and peer friendships.
